# About Us

Popular for offering a high in class range of wires, cables and cords, we, Madhav Electrical have earned huge reputation as a manufacturer. Our large gamut is inclusive of Copper Electrical Wire, Copper Insulated Electrical Wire, 3 Pin Power Supply Cord, 2 Pin Power Supply Cord, etc. These offerings are in huge demand because of their matchless features, such as, durability, shock resistance and ability to withstand high temperature. Our world-class products are offered in markets at greatly reasonable prices. Heavy orders are constantly placed for our offerings which are completed by our team very easily and within the stipulated time frame. Our company has bulk manufacturing capacity because of which we do not hesitate to accept huge orders. We have established a smart infrastructure which is equipped with high-tech machinery and modern technology. Owing to our facilities, we have been making available an incomparable range. Our premises is divided into various units for manufacturing, quality testing, packaging, warehousing and sales & marketing. All these departments are headed by experts whose job is to ensure hassle-free operations within their respective unit. We are very thankful to all our team members who have been supporting us throughout our journey. Because of their passion and dedication, our company is settled on the leading position of the industry today.

## Why To Associate With Us?

- ✿ We offer high in class and only quality tested products, such as, 3 Pin Power Supply Cord, 2 Pin Power Supply Cord, etc.
- ✿ We operate our business with ethics and complete honesty. In our company, transparency is embraced while doing business with clients
- ✿ We offer greatly reliable and excellent customer care service. Our team is available for patrons round the clock

## Quality Assurance

We have a spacious quality testing unit duly furnished with modern equipment, which help us check the manufactured items. The products are tested on different parameters and only considered approved if they meet our strict criteria of quality control. Whole of the assortment is tested under the vigilance of our experts. Only after they approve the products, assortment is forwarded to the packaging unit and later delivered or stored in the warehouse.
